Motivated CRC

MOTIVATED COMMUNITY RESOURCE CENTER

Motivated Young Scholars was started by our dedicated and visionary leaders back in 2012. Motivated Young Scholars has developed into an impactful community resource organization. We emphasize transparency in everything we do, setting bold goals, and pursuing a clear strategy that seeks to move the needle. With the use of Community Outreach, Education, and Advocacy, Motivated aims to ignite the community for change by empowering and improving the quality of life for families.

With your help, we can Inspire, Motivate, Renew, and Awaken our community and encourage you to walk with us on our journey of promoting Positive Change.

MOTIVATED WORKS

Motivated Works is a program designed to assist high schoolers to discover their passion and interest. It is designed for high school students to learn a trade and to get students prepared for the workforce.

Motivated partners with local businesses in various industries to offer internships and opportunities. The program will offer hands-on, real-world work experiences for students to develop career readiness competencies in:

- Leadership
- Teamwork
- Technology
- Work Ethic

These internships are providing learning, networking, and job experience that can boost their resume in the future, especially for college applications.

Our High School Internship Program is designed to expand students' knowledge beyond the classroom.

Internship Opportunity

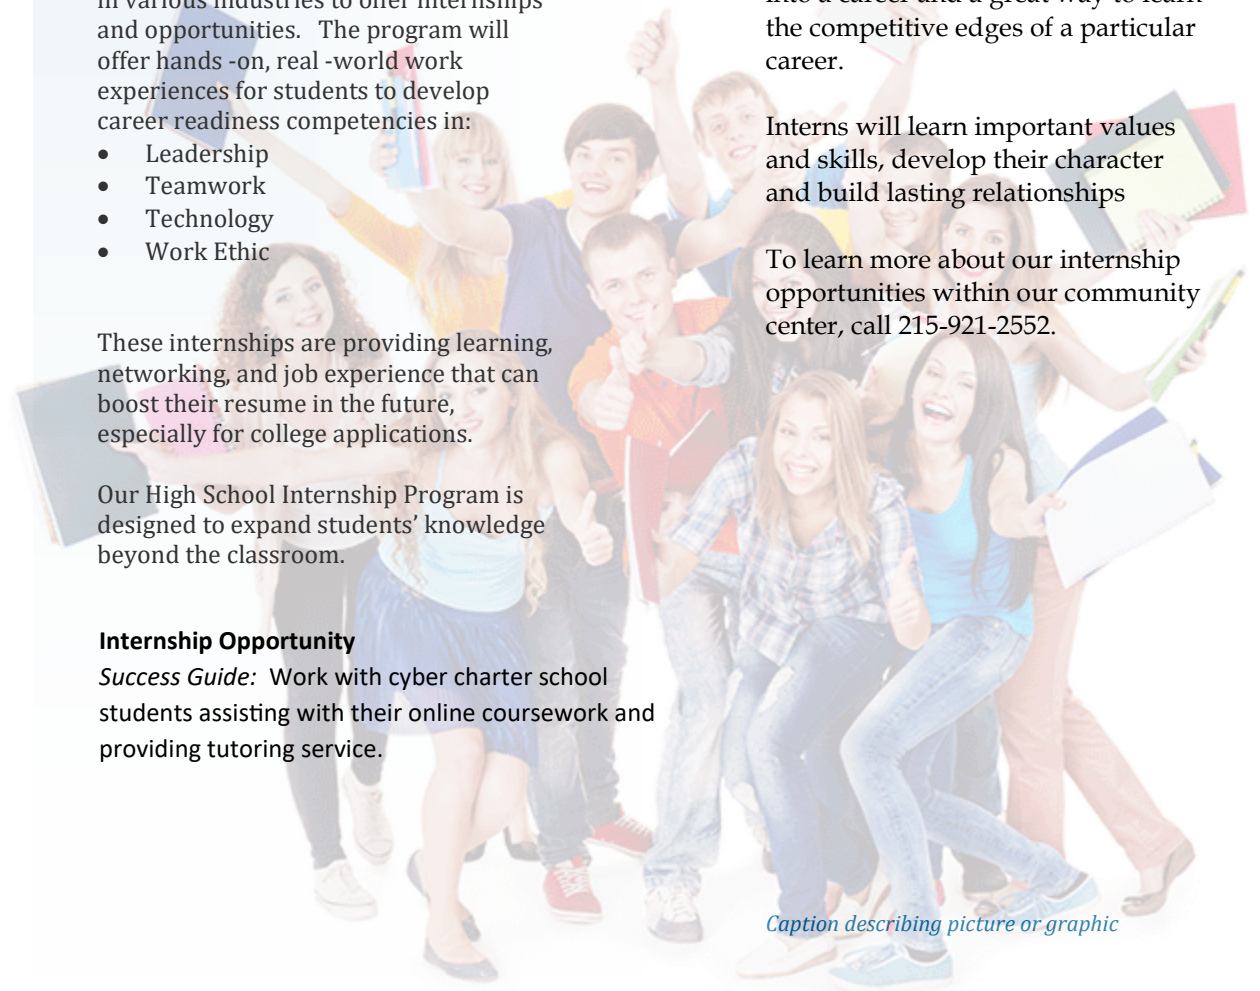

Success Guide: Work with cyber charter school students assisting with their online coursework and providing tutoring service.

Purpose of Internships

Internships are a great way for a student to appear in a career and make their knowledge solid. It is an appropriate way to a stepping stone into a career and a great way to learn the competitive edges of a particular career.

Interns will learn important values and skills, develop their character and build lasting relationships

To learn more about our internship opportunities within our community center, call 215-921-2552.
